Dear Customer

As agreed with you, and in order to accelerate the **DO Automation** process, as well as the data interchange with the Customs Authority,

You are kindly requested to use the B/L number on the DO exactly as it is on the registered manifest.

Thank you for your kind cooperation.

NB: for those who did not start yet **the DO Automation process**, you are kindly invited to start ASAP, in order to facilitate the electronic DO validation, that will be very soon applied by the Customs.
